TMSS was designed as a service to locate tests, measures, instruments, etc. when there is a known title and a copy of the item is desired.

This section, a part of the TMSS index, features one resource for the many tests that can be found quickly in compilation volumes available in and through our libraries.

When full text of the test is available in a printed volume, this is indicated in the TMSS entry.

Each entry contains (when possible): test title, test acronym, copyright or publication date(s), author(s), and source citation.

Copyright permission is NOT provided for use or reproduction of the instruments, neither here nor usually in the print resource. Contact the copyright holder of the measure for these permissions.
